

## **Tanvex received marketing authorization from Health Canada**

Oct. 17, 2021

Tanvex BioPharma, Inc. (TWSE: 6541) announced that Health Canada had completed their review of our submission of NYPOZI (TX01) and granted marketing authorization. This milestone achievement positions the company a step closer to product commercialization in Canada.

NYPOZI (TX01), a proposed biosimilar to the reference product – Amgen’s NEUPOGEN® -- is indicated to decrease the incidence of infection, as manifested by febrile neutropenia, in patients with non-myeloid malignancies receiving myelosuppressive anticancer drugs associated with a significant incidence of severe neutropenia with fever.

According to data from IQVIA, filgrastim product sales were close to \$100 million (CAD) in the Canada for the 12 months ended June, 2021.
